## DETAILED ACTION

### *Response to Arguments*

1. Applicant's arguments filed 12/15/03 have been fully considered but they are not persuasive. The arguments are based on amended claims, which include new matter.

The new matter rejection follows.

### *Claim Rejections - 35 USC § 112*

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The amended claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

As per amended **claims 1, 10 and 17**, applicant now claims "a **plurality** of N-best part-of-speech (POS) (tag) sequences..."

The applicant does not teach identifying multiples of N-best, or a plurality of N-best POS sequences. The examiner has interpreted this as a possible 2X1-best, 3X5-best, or plurality of N-best POS sequences. For example, in the event N=1, of best POS sequences, by the amended claims, applicant must identify a plural of the best POS sequence, which is not described in the specification. The applicant simply teaches

Art Unit: 2654

identifying N-best part-of speech sequences (p.4.line 13, 14, p.11.lines 7-9, p.14.line 12, p.15.lines 10 and 11).

4. Claims 2-9, 11-16, and 18-20 depend from rejected parent claims, and therefore are rejected.

### ***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
